MONEY, BONDS AND STOCKS.

A Dull but Firm to Strong Market, with No Reactions of Importance. NEW YORK, Aug. 27.-Money on call was easy at 11 @2 per cent, closing offered at 11 per

Prime mercantile paper, 41 261 per cent.

Sterling exchange was dull but steady at \$4.844 for sixty-day bills, and \$4.874 for demand. The total sales of stocks to-day were 206,034 shares, including the following: Delaware, Lackawanna & Western, 29,700; Erie, 6,050, Lake Shore, 4,506; Northwestern, 7,536; New Jersey Central, 3,100; Norfolk & Western preferred, 4,041; Northern Pacific preferred, 4,900; Oregon Transcontinental, 10,980; Reading. 45,850; St. Paul, 28,190; Texas Pacific, 3,038;

Union Pacific, 7,680; Western Union, 23,228. The stock market to-day displayed very little change over those of the final days of last week, being dull but firm to strong, with no reaction of importance and a little more animation on the rise. The interest in the day's transactions was sentered in only four stocks: Reading, Western Union, Lackawanna, and St. Paul, with Oregon & Trascontinental and Union Pacific in the second rank. Some effort was made by the "shorts" to get St. Paul down in the early trading, and rumors of a reduction of the rate of the next dividend were freely circulated, but with little effect, and later the covering operations served to bring the stock up among the strongest on the list. Lackawanna and Reading were the leaders of the market, and the latter sold at the highest price yet attained, both showing a handsome advance as the result of the day's operations. The noperul utterances of Mr Gould brought the stocks bearing his name to the front, and Western Union was very prominent in the upward movement, though the rest of the group were comparatively neglected. There was very light offering of stocks, and the demand came from both the foreigners and commission bouses, the purchases by the latter being more marked than at any time of recent date. There was considerable animation at the opening, which was strong at advances extending to ? per cent., and under the lead of St. Paul further fractional advances were established during the forenoon, with but little feature to the dealings. Reading, Western Union and Lackawanna came to the front after 12 o'clock, while the trading in the rest of the list shrank to the smallest. No further change was noticed in the list, and no movement of interest occurred during the remainder of the session, and the market finally closed dull but firm at about the best prices of the day. Everything, without exception, on the active list is higher this evening. St. Paul rose 12, Reading 12, and Lackawanna 1 per cent. The railroad bond market was again dull to-

day, though the total sales reached \$1,035,000, of which \$246,000 were in the Reading second incomes. There was little character to the dealings, and most of the list shows but slight changes, and the few important differences in quotations are generally in the direction of low-

not specially bullish. There appears, from the early cables; to be a let-up in the demand abroad and an easier feeling in British markets. The news from the Northwest was of every description. The "bull" news was confined to particular localities, while private advices caused the general belief that the damage from frost was not serious enough to warrant any great bulge in wheat over 90c. There were many who are "bulls" for a long run on the foreign situation, who did not feel that they could accomplish much more on that side until there was a further reaction and until the bearish feeling was over. There was a lower opening and a further break in prices early. When another cent decline was brought about the crowd became very cautious about selling September short, and the "bulls" easily braced it up again. September sold at 89c, down a fraction to 88jc, up to 90jc, back to 89%, and then up do on the visible supply figures, and again back to 90c. Wheat closed fairly firm at the best figures of the day, with September at 90%c, or ic higher than at the close on Saturday. Corn was only moderately active, and the feeling developed was weaker. The market opened to lower than the closing prices of Saturday, fluctuated within a # 24c range, and closed # 24c lower than Saturday. The market was governed by local influences. There was a moderate trade in oats at slightly lower prices, influenced by the weakness in corn and large estimated receipts for to-morrow. Prices for future delivery declined 10% and closed steadier. Pork was strong, advancing 35c over the opening and 30c over Saturday's close, and resting at 1 o'clock at the top, \$14.35 for October delivery. Hogs at the yards came in very poor in quality, and "shorts" ran the market up in their efforts to cover. Lard and ribs were strong, in sympathy with pork, but much less active. October lard closed at 9.32 c, where it opened, and short ribs at 8.47 to, .07 to advance.

INDIANAPOLIS MARKETS. Trade Opens Active and a Good Week's Business Is in Prospect.

INDIANAPOLIS, Aug. 27. In all departments to-day trade opened fairly active, and there is a feeling that the trade of the week will be very satisfactory in volume. Prices on most lines rule firm. Poultry is a little off as predicted it would be on Saturday. Chickens would bring but 8 cents and hens but 9 cents per pound. Eggs steady, receipts increasing, lower prices indicated. Choice butter scarce and meeting with ready sale. The commission houses are flooded with fruits. Fine peaches sold to-day at 30 cents per box, some few choice ones brought 40 cents, but those were sold in a retail way. Good apples sold at \$1 per barrel, and pears at \$1 per bushel, which were large and fine for canning purposes. Potatoes. and in fact vegetables of all kinds in abundant supply and prices ruling weak. The grocery market presented no new features. Both sugars and coffees steady and firm in tone. The New York Commercial shipping list says of staple groceries: "There has been no special feature in the market for staple groceries. Refined sugar has been in moderate request as dealers are still working off the accumulation that resulted from the heavy buying early in the month, but consumption throughout the country is large and dealers will soon have to replenish; raw sugar is firmly held in view of the strong statistical position of the world's supand less favorable accounts respecting the condition of the European beet crop, which is now the most important factor, as the season for fabrication is not more than six weeks off. The last estimates foreshadowed an increase of about 500,000 tons over last year, but it is now intimated that the yield is less promising. The continental markets have been more or less excited, with a sharp advance in prices, but the influence has not extended to this side of the Atlantic, as supplies here are sufficient for immediate requirements.

Coffee has continued to rule firm on account of a better distributive demand, decreasing stocks at the seaports and the poor assortment that is available. The quantity affoat for this country is comparatively moderate, and hence the position for the next thirty days is unusually favorable, even with a moderate distribution. The market is sensitive because of the small stocks that are being carried by dealers and roasters throughout the country. Tea is quiet but steady, with the line trade rather light, but holders are confident of an early improvement." The provision market is a little off still as to prices. The distribution is hardly as large as in the early part of the month. Dry goods men had a fairly busy day; a number of buyers were in, and mail orders were liberal.

GRAIN. It was an off day in the local market. Prices were off, and bidding on 'Change tame. Reports from other markets showed a weak tone. Track

bids ruled as follows: Wheat-No. 2 red..... No. 3 red..... Octobe r.... Corn-No. 1 white..... No. 2 white..... No. 3 white..... Oats-No. 2 white No. 2 mixed..... Rejected..... October.... Hay-Choice timothy......\$14.00 No. 1 timothy...... 13.50
